

FOR IMMEDIATE RELEASE

TROW GLOBAL ANNOUNCES ALLIANCE WITH VELOCITEL

Brampton, Ontario – February 20, 2009 - Vlad Stritesky, President and CEO of Trow Global (Trow), a Canadian firm of engineers, consultants and project managers headquartered in Brampton, Ontario, is pleased to announce that the Company has joined forces with Velocitel, Inc. through a strategic alliance, to deliver world class consulting services to the wireless telecommunications industry. The alliance is aimed at developing a significant joint presence in Canada for wireless communications projects.

The relationship between Velocitel and Trow offers fully-integrated services along the wireless communications life cycle from project initiation through to completion.

"This partnership reflects our unwavering commitment to our strategic business plan of focusing on the needs of our clients by providing 'one-stop shop' solutions for our customers." said Vlad Stritesky of Trow. "Our national reach and complementary areas of expertise make this partnership an ideal alliance for our clients in the wireless communications industry."

"We are very excited to partner with Trow in the Canadian wireless market." said Jim Estes, CEO of Velocitel, Inc. "Our combined skills and experience create a very compelling suite of services to support the rapid growth resulting from the recent Canadian spectrum auction."

About Trow

Founded in 1957, Trow has grown in size into one of Canada's largest engineering and consulting firms. With offices across Canada, the U.S. and internationally, and with projects around the globe, Trow offers clients in both the private and public sectors a full range of services provided by a dedicated team of over 2,000 staff which includes specialist engineers and technical experts from 70 Canadian, U.S. and international locations. Selected as a winner of Canada's 50 Best Managed Companies Program for 2001 and 2006, and a requalifier for 2002, 2003, 2007 and 2008, Trow provides integrated solutions to the Commercial, Energy, Industrial, Infrastructure, Institutional, Residential and Transportation sectors. Today, the Company continues to enjoy dynamic growth on a global scale.

About Velocitel

Headquartered in Arlington, Virginia, Velocitel is a wireless network services company with innovative, flexible, and responsive solutions for developing and maintaining today's wireless communications systems. Velocitel's goal is to work in partnership with their customers to provide complete wireless site development engineering services – using innovative thinking, combined with years of industry experience, know-how, and common-sense – in order to achieve the best results possible.
